# 2D SHAPES

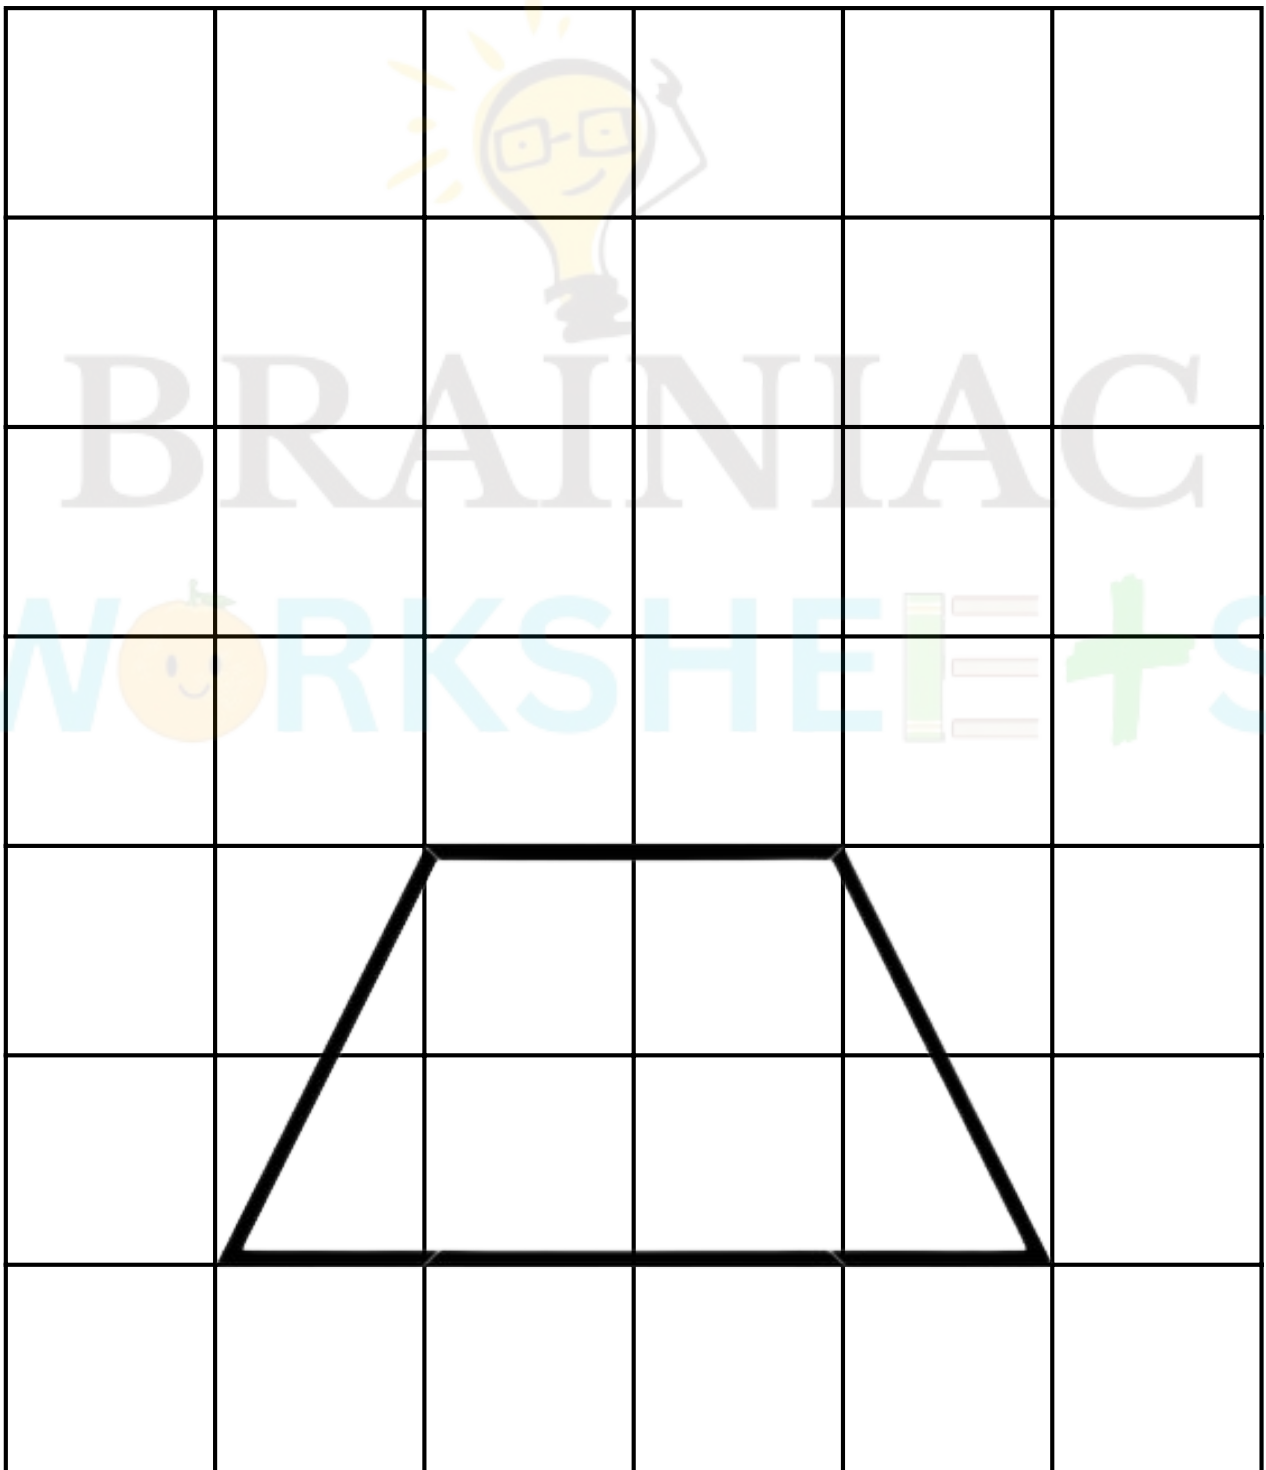

We can make new 2D shapes using different shapes. Draw another triangle to make a square:

# 2D SHAPES

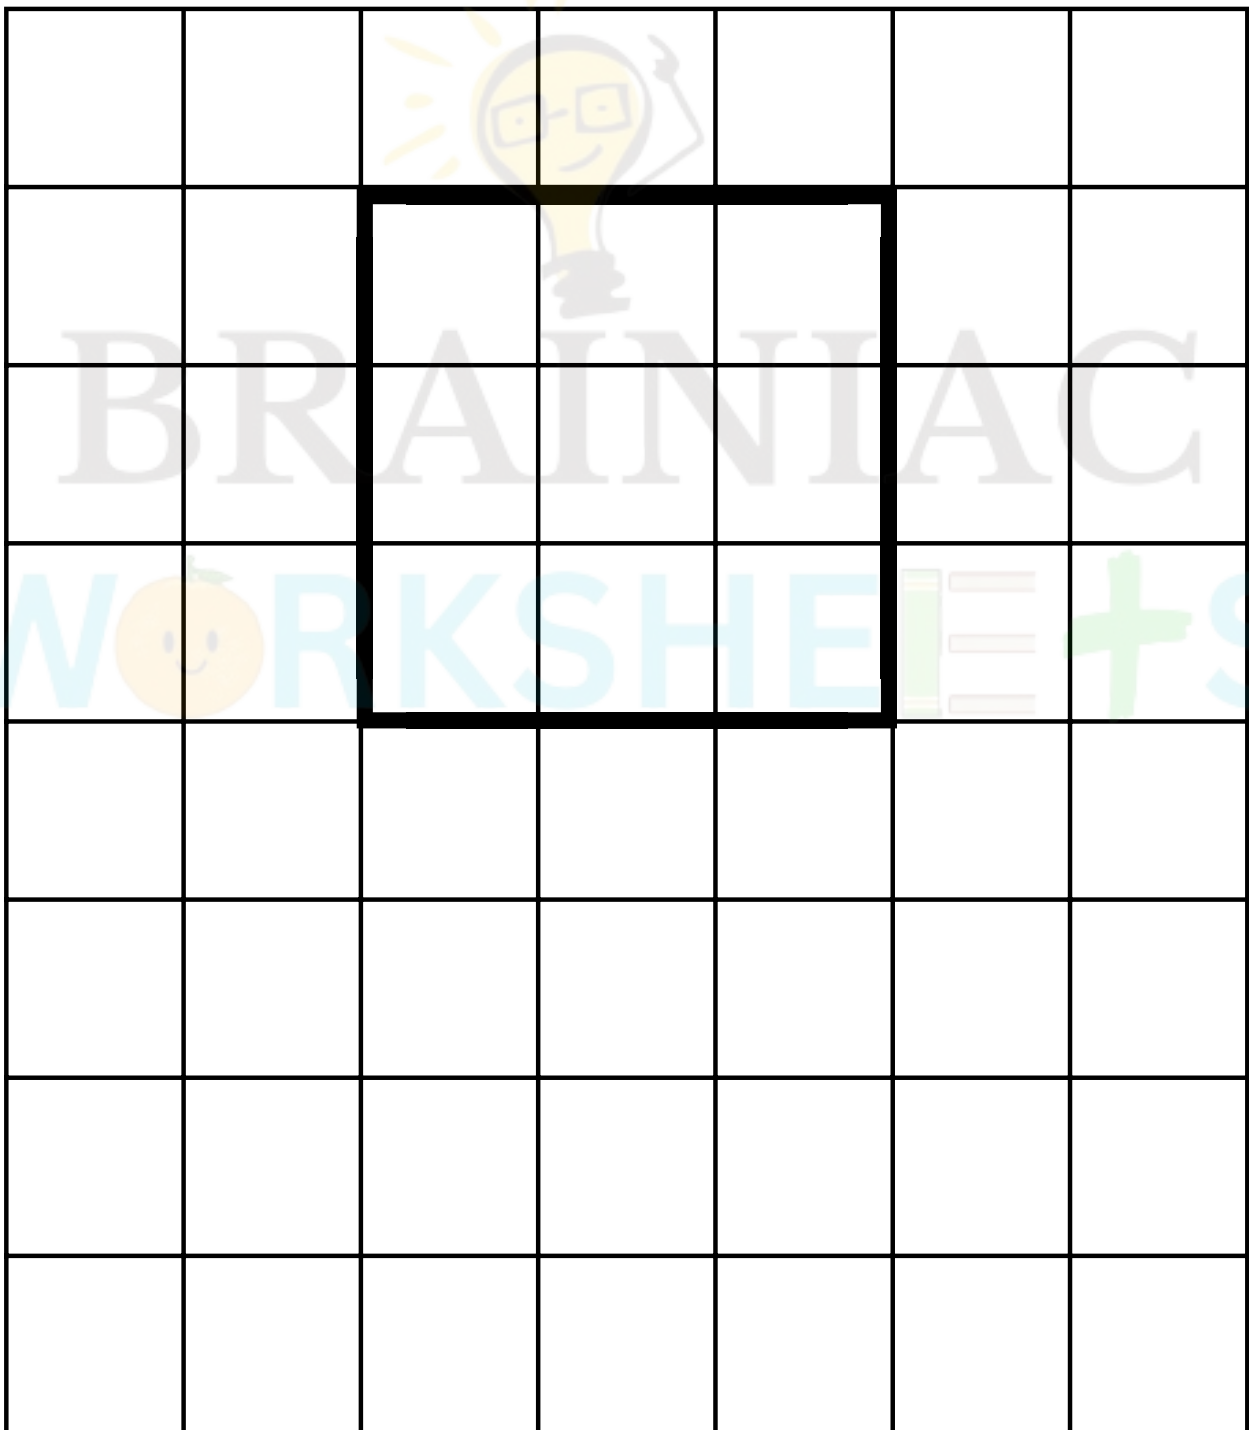

We can make new 2D shapes using different shapes.

Draw a small triangle to make a large triangle:

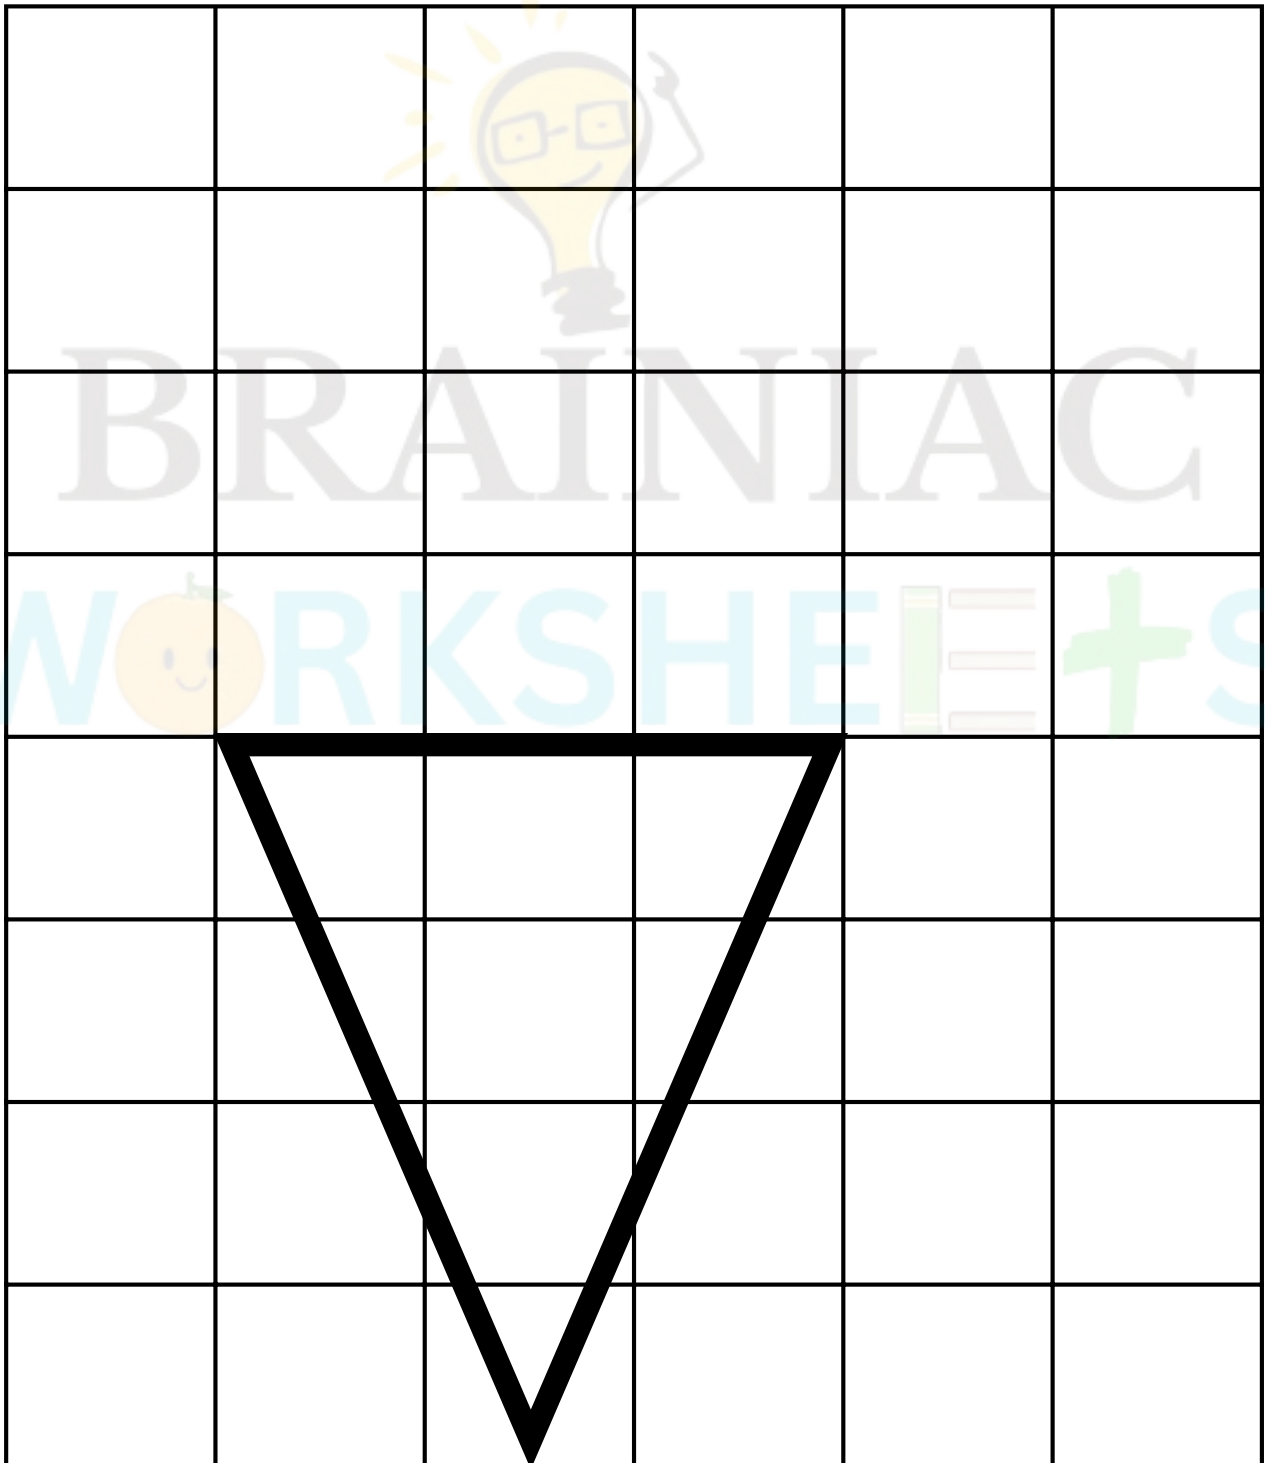

# 2D SHAPES

We can make new 2D shapes using different shapes. Draw another square to make a rectangle:

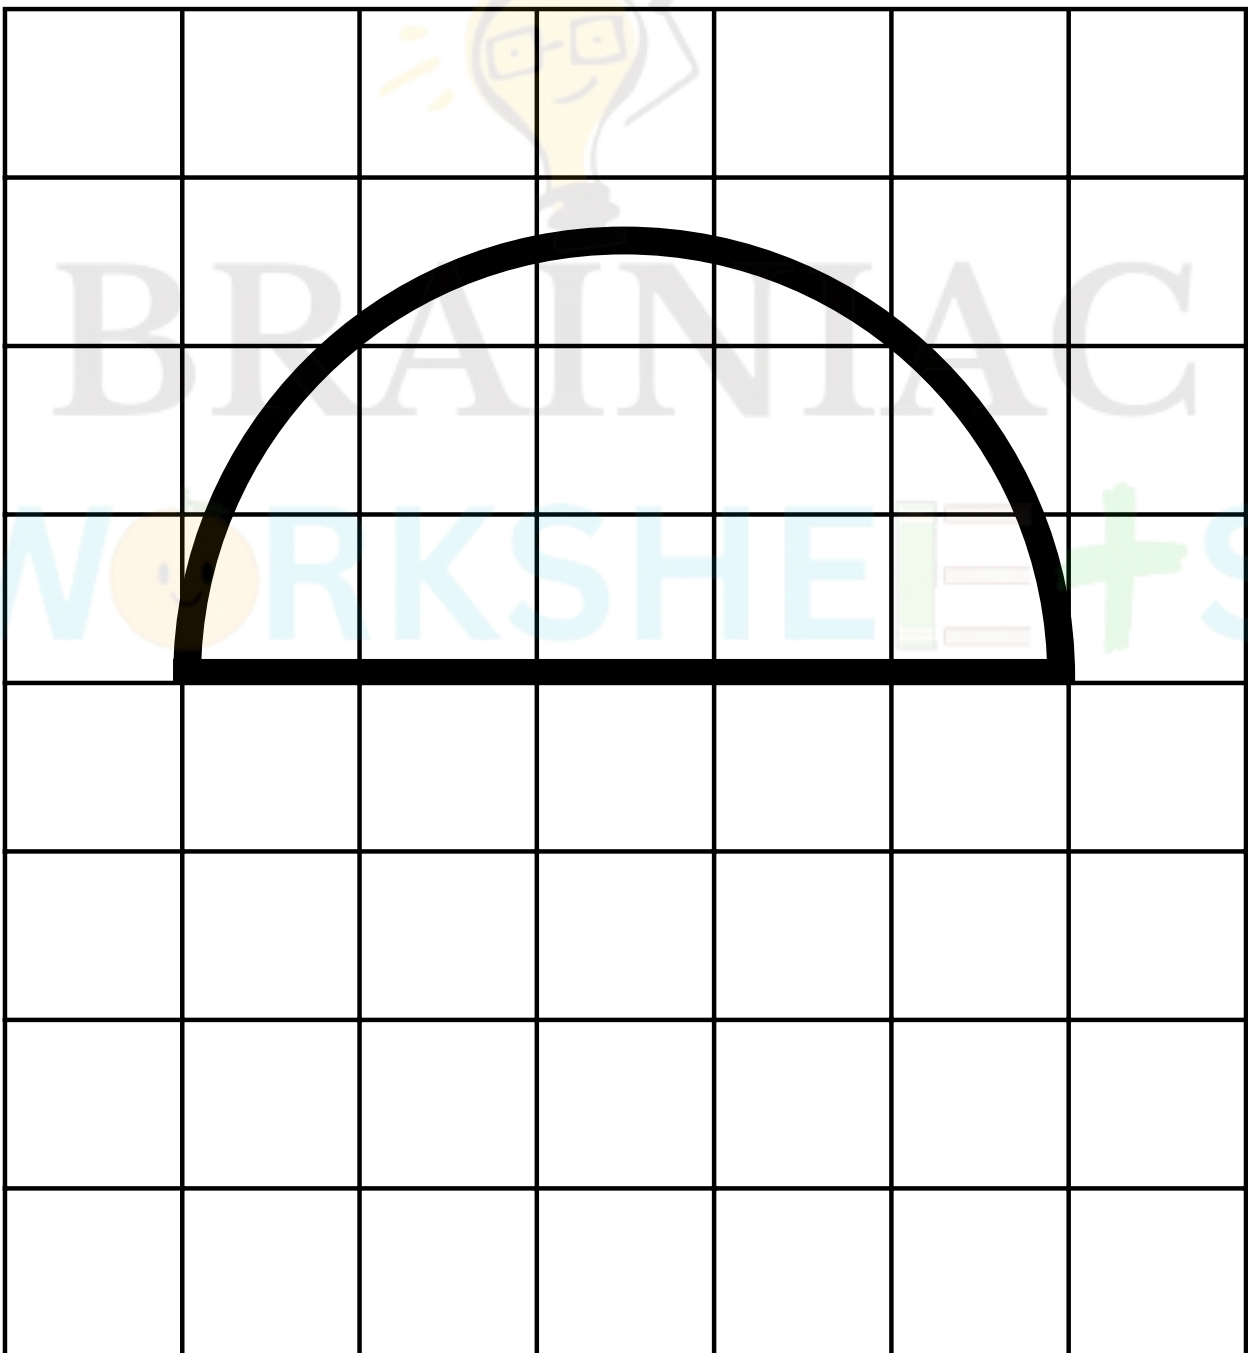

# 2D SHAPES

We can make new 2D shapes using different shapes. Draw another triangle to make a diamond:

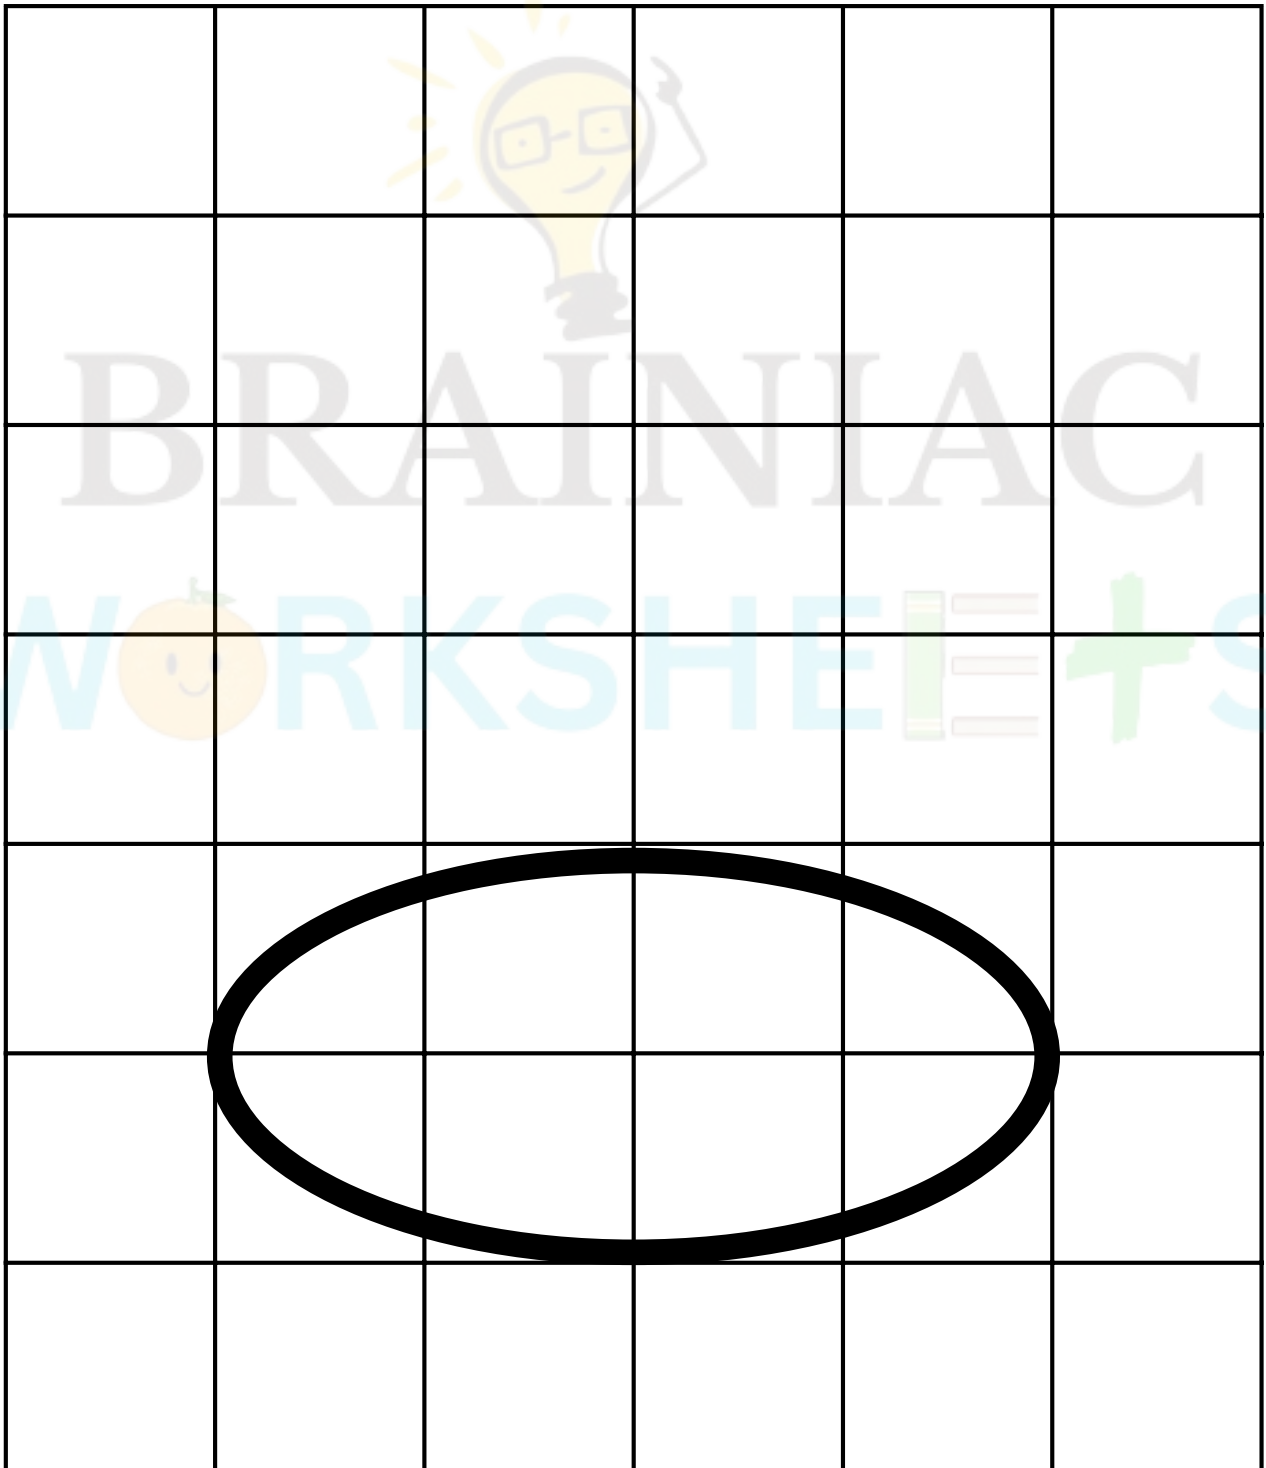

# 2D SHAPES

We can make new 2D shapes using different shapes. Draw another semi-circle to make a circle:

# 2D SHAPES

We can make new 2D shapes using different shapes. Draw a triangle to make a cone:

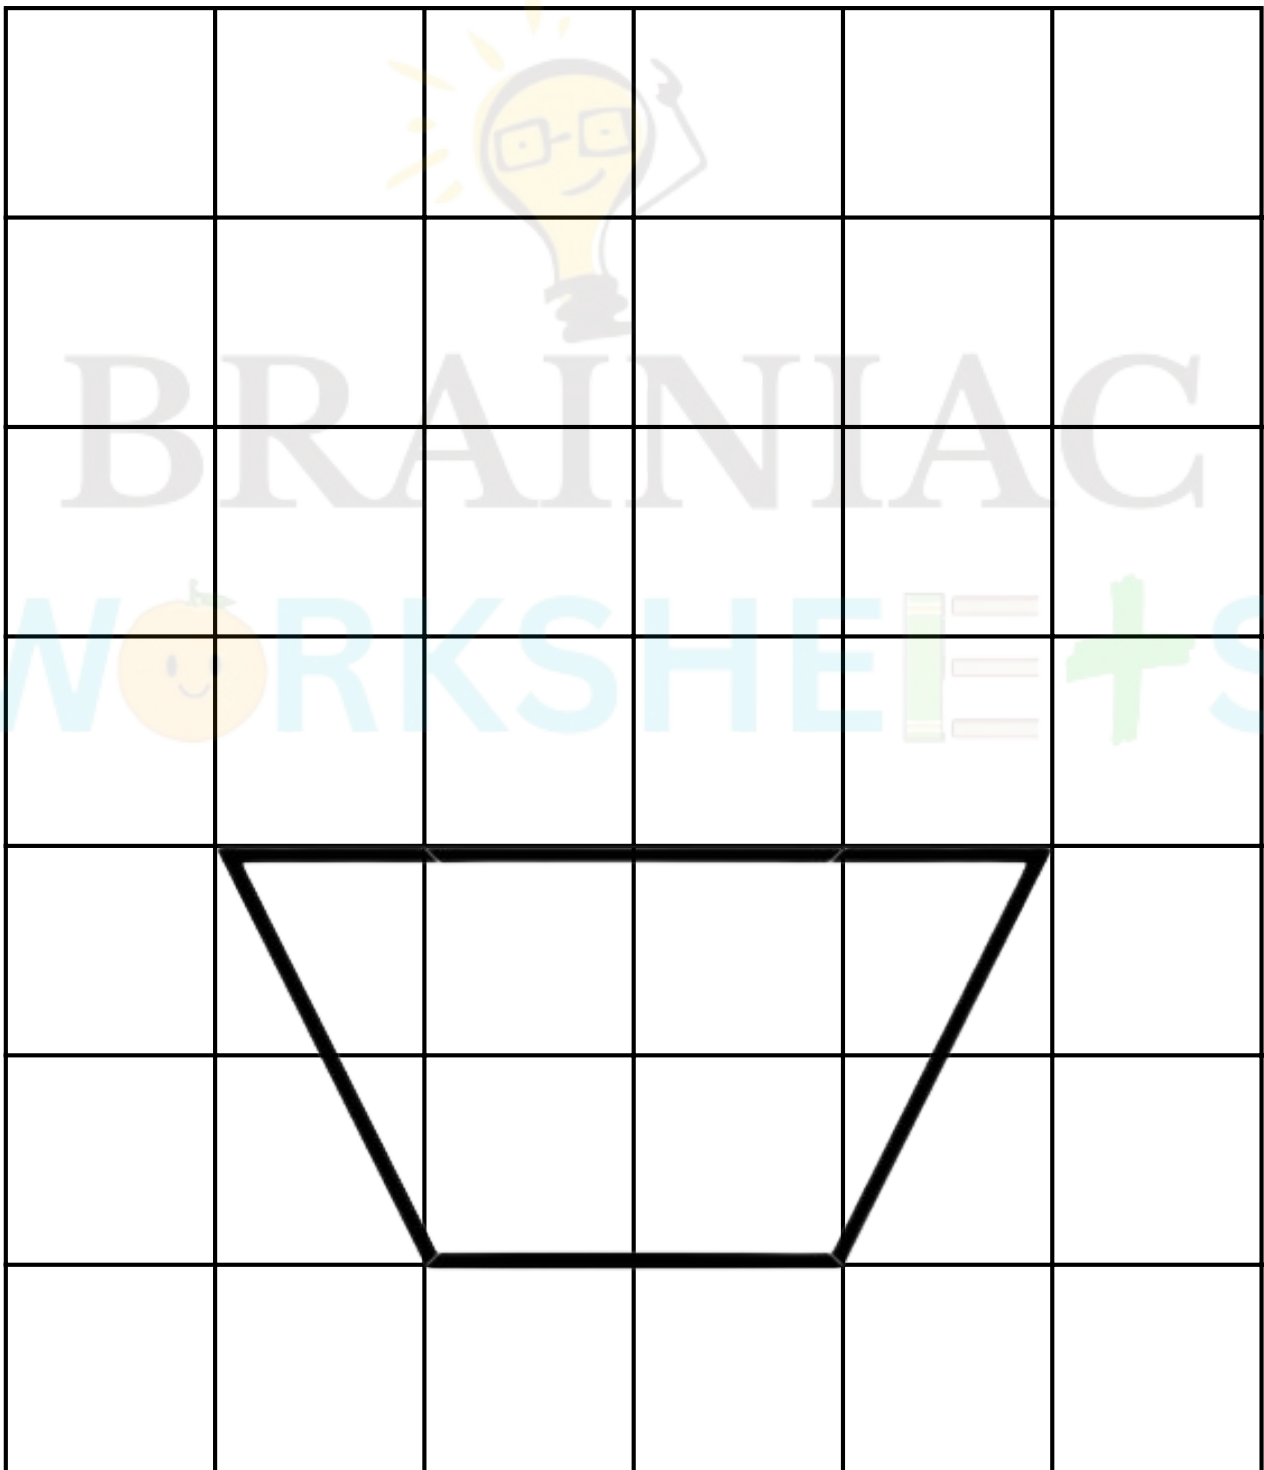

# 2D SHAPES

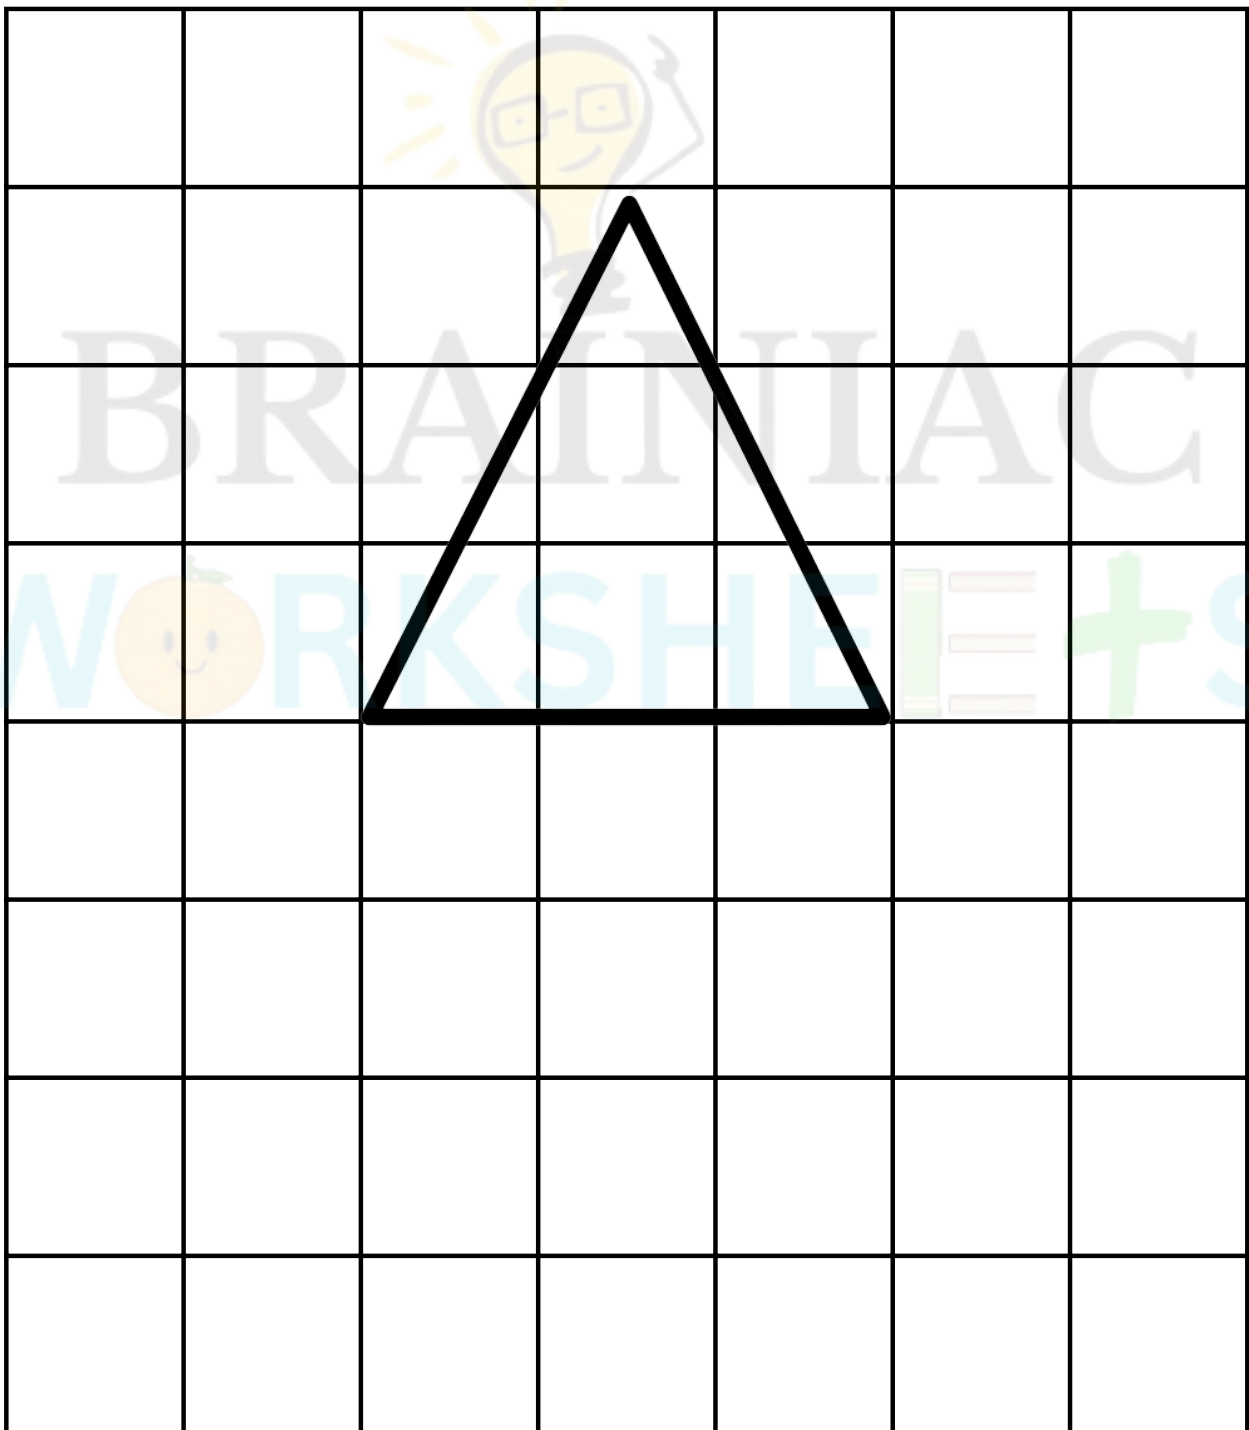

We can make new 2D shapes using different shapes.

Draw a triangle to make a pentagon:

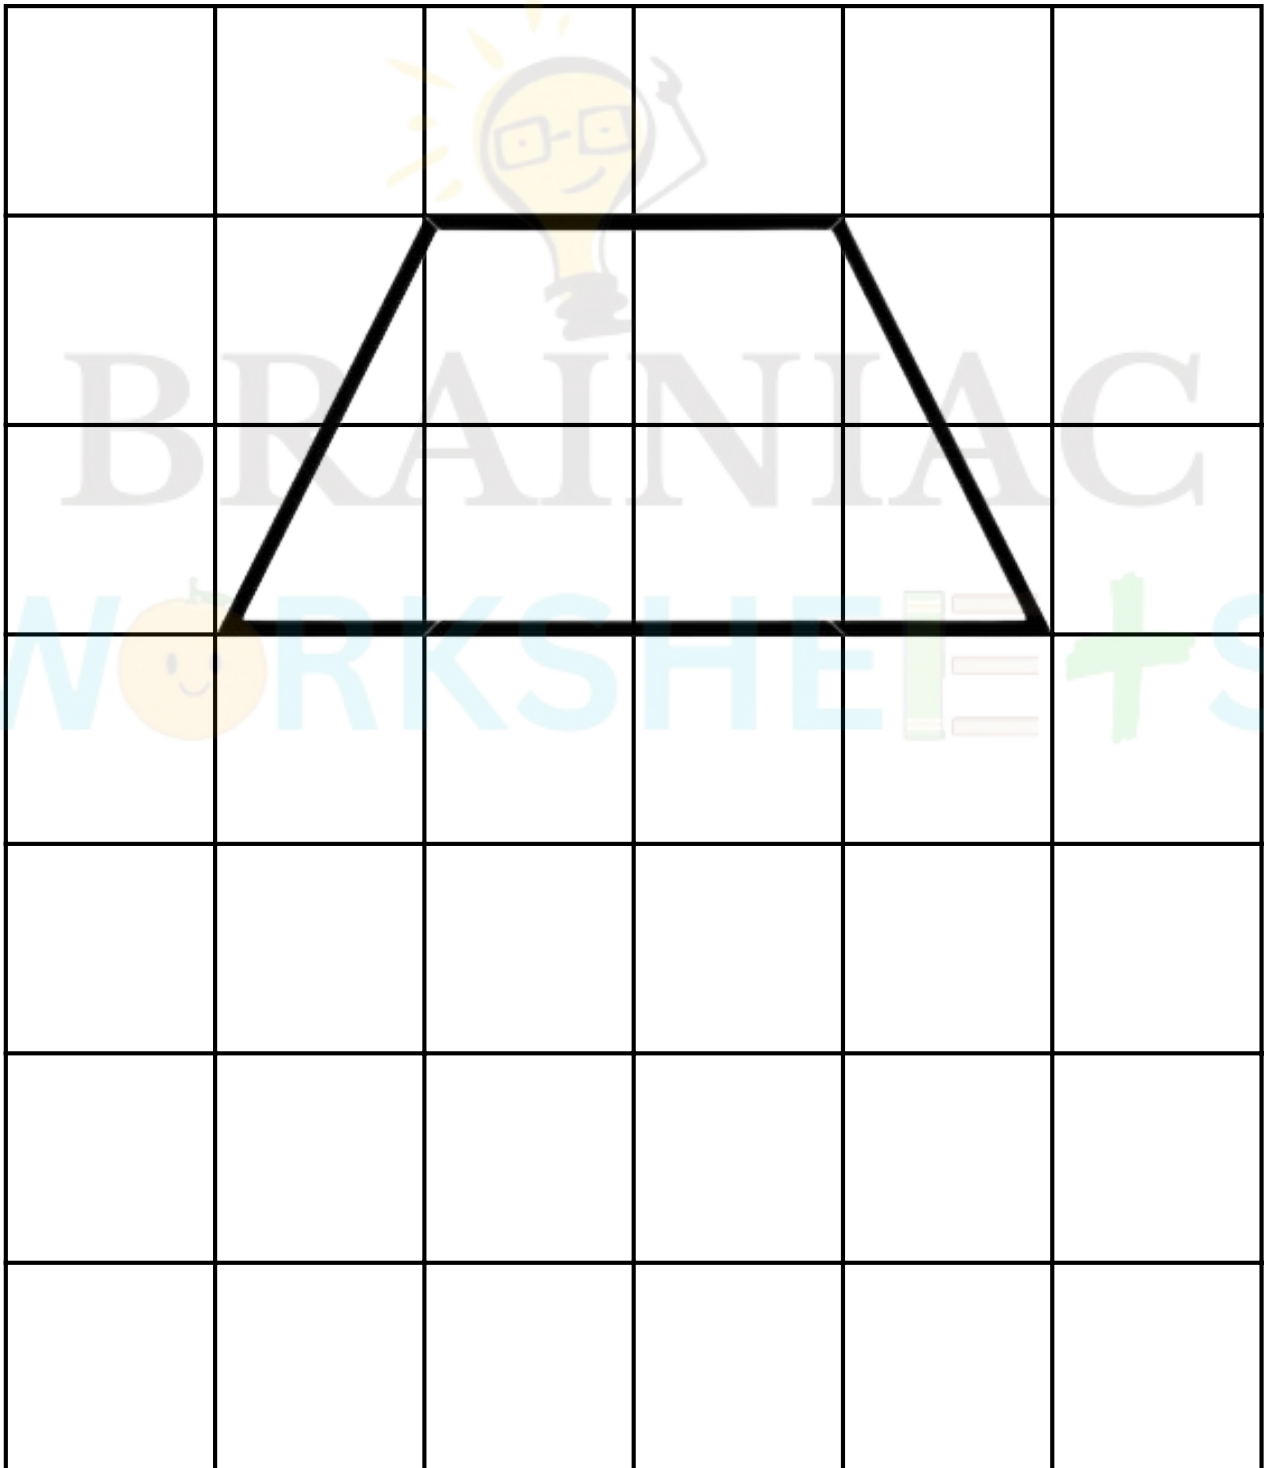

# 2D SHAPES

We can make new 2D shapes using different shapes. Draw another triangle to make a rhombus:

# 2D SHAPES

We can make new 2D shapes using different shapes. Draw another trapezoid to make a hexagon:

# 2D SHAPES

We can make new 2D shapes using different shapes. Draw another rectangle to make a square:
