MY BEST FRIEND

24

My best friend is Eva. She is my neighbor and my classmate. We are in Primary 4. We live in the same village, so we can play together on the weekends. Eva loves to travel with her family. Last year, she went to Japan to visit her grandparents. She bought some keychains, chocolate, and toys. She always gives me gifts every time she travels.

Next year, in December, she will be traveling to America to visit her aunt. She is very excited because she really wants to experience winter. I am so happy for my friend because she's able to travel and enjoy herself with her family.
