

# USING SCIENTIFIC EQUIPMENT

**Task 1:** Draw the experiments.

**Task 2:** Try the experiments at school under the supervision of your teacher. Make sure to take necessary precautions as instructed by your teacher.

**Note:** The first one has been done for you.

**1. Heating a flask of liquid with a bunsen burner**

**2. Heating a test tube with a bunsen burner**

**3. Filtering liquid in to a flask**

**4. Taking the temperature of a liquid in a flask**
